

February

4 year old class

Mrs. Ord/ Miss Rehrig
Mrs. Puia/ Mrs. Henne

Curriculum Theme: Growing

Week 1: Flowers/Plant Needs

Letter: Xx

Number: 14

Identify the basic needs of plants (water and light)

Week 2: Vegetable Plant Parts

Letter: Ww

Number: 15

Shape: Heart

Week 3: Fruit/ Sequencing Growth

Letter: Jj

Number: 16

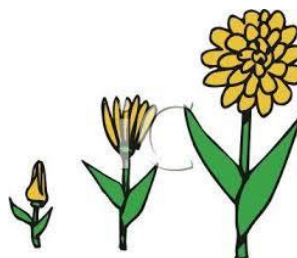

Color: Purple

Week 4: Trees/ Changes over time

Letter: Yy

Number review #14-16

Recognize that plants and animals grow and change

Important Dates:

2/1: Chapel

2/7: Open House Event 6:30-8pm

2/10: Gym

2/13: Valentine's Party

2/17-2/20: Winter Break

2/22: Library

2/27: Show & Tell (*Please bring in a picture of your favorite fruit or vegetable*)

Hello Parents,

Our month of learning about animals was another fun-filled and busy time. The children really enjoyed playing in the sand table with the land animals and the water table with the ocean animals. They learned about the various habitats in which animals live and similarities and differences between them. Some of the highlights of the month included our Pajama Party where the children enjoyed extra academic and free play and watched the movie, "Stranger in the Woods," altogether with popcorn and our special items from home.

This month we will be focusing on the topic of growing while observing flowers, vegetables, fruits and trees and how they change overtime. The students will each have their own observation books to record what they see and we will be making individual grass people along with studying the growing sequence. We will also be creating our Valentine's Day crafts and celebrating with a party. Every student is welcome to bring in Valentines for their classmates to give out during the party. (A class list will be going home soon.)
