Topic: Sun/Moon

## **Important Dates:**

02/07/17 – Registration/Open House

02/14/17 – PK Valentine Party

02/17-02/20 – Winter Break

Dear Families,

January has been filled with many ocean adventures! "Lulu" Lizard joined our class in her water environment for a few weeks to let us observe and measure her growth. Pre-K learned about the various bodies of water on planet Earth; as well as the many creatures and plants that live in our oceans; the food chain, how to protect our oceans and the creatures that call it home. We also learned about protecting the environment from different types of pollution that affect our oceans and ocean life. The children are becoming more comfortable with self-expression during art, music and dramatic play. We created Octopi, Jelly Fish, Aquarium and Oceans in a Bottle. The Pre-K students began the New Year spelling their last names, clapping the syllables of their own names and, the names of classmates and teachers! We continue reading, singing and rhyming our way through books, numbers and letters.

Our class completed the month with our Pajama Party! We watched "The Blue Planet", ate popcorn, sang songs and danced "The Swim"!

Next, ... Fantastic February!!

Mrs. Horwith and Mrs. Schaedel
