03/22/18 – Bowl-A-Thon -Jordan Lanes

03/26/18 – Show and Tell

03/28/18 – Easter Bonnet Parade and
Easter Egg Hunt

Dear Families,

February 2018 will certainly go into the record books as unique bringing us Snow Days as well as temperatures climbing into the 70's! The month also found the Pre-K class very busy learning about and experimenting with our "Five Senses". The class read about sight and the parts of our eyes. We learned about increasing our power of observation through celery and candy heart experiments as well as walks. The children experimented with touch and smell during our outdoor walks as well as indoors with art projects and "Smellies" in our Science Center. Pre-K had fun learning about Hearing when creating and playing individual "Clarinet", "Coffee Drums" and "Bottle Whistles", all created with recycled materials. The class experimented with taste when the children were asked to determine which taste buds they were using when sampling olives, lemons, pretzels and strawberries. Pre-K is looking forward to a fun filled March as we take our "Road Trip Across America"! **March request reminder: Each child will need a shoebox for our "Road Trip Across America".**

Thank you!!

Mrs. Horwith and Mrs. Schaedel
